CLASSIFICATION: Mandatory Safety
Mandatory Repair
Optional Repair
Fix-as-fail
Information

As an ongoing design improvement to the braking system on mobile equipment, the Teledyne engineering group has evaluated and made design changes to the braking system that we feel will upgrade and improve the functioning of this system. We strongly recommend this system be incorporated into your mobile equipment.

Teledyne will supply the parts and installation information free of charge and will follow up for progress of the installation.

The part number of the retrofit kits are:

625-6800ML for the 12V

625-6808ML for the 24V
